

The Neanderthal's Necklace: In Search Of The First Thinkers - Juan Luis Arsuaga

The Neanderthals provide a surprising mirror for modern-day humanity. They belonged to our evolutionary group and lived like the Cro-Magnons, our ancestors, did worshipping, socializing, and hunting. The struggle between Neanderthals and Cro-Magnons lasted thousands of years. The Cro-Magnons were not biologically fit for extreme cold weather, but their ingenuity allowed them to settle down, band together, and survive. In this tale of life, death, and the awakening of human awareness, Juan Luis Arsuaga, Spain's most celebrated paleoanthropologist, depicts the dramatic struggle between two clashing species, of which only one survives.
