

Wordpress How To Videos 1 To 15

[DOWNLOAD HERE](#)

Here is my collection of WordPress training videos numbers 1 to 15. These are high quality professional videos. Each video is in a .exe package which means once you have downloaded the folder...unzipped it...you then just have to click on the .exe package to open and play the video. Each package plays one video. Clean and tidy. No messy video problems for playing...super easy. HOWEVER...they only work on PCs not Mac computers. PLEASE DO NOT PURCHASE IF YOU WANT TO USE THEM ON A MAC/APPLE COMPUTER. These are my first 15 videos and deal with... Installing on Cpanel Installing Manually Clean Up Permalink Customise Dashboard Post Pages Images Plugins Plugins ftp Plugins Update-Delete Themes Dashboard Themes Manual Themes Upgrade Themes Customise Watch out for my follow up videos as I will keep building on the WordPress format and add videos as WordPress changes or if there are specific area of interest.
