

Many Scales In The Universe

[DOWNLOAD HERE](#)

Preface- Committees- Cosmic Microwave Background; Enrique Martnez-Gonzlez and Patricio Vielva- The Gravitational Lensing Effect in Cosmology; Genevieve Soucail- The PLANCK Mission; J.A. Tauber- Surveys of Extragalactic Sources with Planck; G. De Zotti, C. Burigana, M. Negrello, S. Tinti and R. Ricci, L. Silva, J. Gonzalez-Nuevo and L. Toffolatti- New Physics in Clusters of Galaxies; M. Douspis- Emission Line Galaxies in Clusters; Bianca M. Poggianti- Active Galactic Nuclei and Surveys: the View from the New X-ray Observatories; X. Barcons- Star-Forming Complexes in Galaxies; Bruce G. Elmegreen- Star Formation and Infrared Emission in Galaxies; Nikolaos D. Kylafis and Angelos Misiriotis- Evolution of the MilkyWay Disk; B. Nordstrm, J. Andersen- Massive Stars in the Galactic Center; F. Najarro- The Mass Spectrum of X-Ray Binaries; Jorge Casares- Massive Stars in Starbursts; Alan Pedlar- The Hot Content of Planetary Nebulae; Martin A. Guerrero, You-Hua Chu and Robert A. Gruendl- The Hidden Life of Massive Stars; A. Lenorzer, A. Bik, M. R. Mokiem, A. de Koter, L. Kaper, L.B.F.M. Waters- What can we learn about the Sun from observations in the near ultraviolet? Achim Gandorfer- Our Magnetic Sun; E.R. Priest- Moist Convective Storms in the Atmospheres of Jupiter and Saturn; Ricardo Hueso and Agustn Snchez-Lavega- Exploring the Solar System beyond Neptune; Jose L. Ortiz and Pablo Santos-Sanz- Planet Detection with Large Telescopes and Interferometry; Andreas Quirrenbach- AVO First Science; Mark G. Allen, Paolo Padovani, Piero Rosati, Nicholas A. Walton- Euro50: A European 50 m Adaptive Optics Extremely Large Telescope; Arne Ardeberg and Torben Andersen EAN/ISBN : 9781402045264
Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Iniesta, J.C. - Alfaro, E.J. - Gorgas, J.G.
