Monster Directory Submission Software..... Do you really know what it takes to quickly generate high-quality traffic to your Web Site? Listen up I must let you in on a few insider *secrets*: We all know that generating traffic to a new website can be frustrating. I remember the days of checking my user status, only to find 10 or 15 hits per day. It seemed like such a slow, tedious process that I, frankly, did not have the patience for. Getting a new website on the map isn't easy! In order to be successful, you have to understand web development, search engine operations, linking campaigns, and of course, you need a marketing strategy. I have spent the last 5 years researching web traffic generation. I've spent thousands of hours experimenting with new software and ideas. When I first began, the process seemed archaic- I was individually emailing webmasters for links, and eventually, submitting to directory after directory, one at a time. The manual link directory submission process seemed so wearisome, but I knew it didn't have to be. I'll be perfectly honest. I created this website because I have teamed up with a Master Programmer to create a revolutionary new piece of software that makes the monotonous first stages of traffic generation a breeze. It is a piece of software that will drive specific, targeted customers to your site in hoards. I can predict with strong conviction that with our software, your user status will triple or even quadruple in 60 days or less. But here is the best part we can offer you the complete software package for less than the cost of a reasonable website advertisement. So how does this new software work? Link

Directory Submitter is the perfect solution for sending your sites to a multitude of pre-configured online directories. Link Directory Submitter comes with 2700+ link directories to submit to, more than half ranging from PR4 to PR7. Our directory submitter does not contain FFA pages or Link farms. Instead you will find specific, highly targeted directory sites just like DMOZ and many many more. There are only 3 easy steps required: Create a profile (That is, the common data you usually have to repeatedly type by hand: your site address, link title, description, keywords, etc). This is a one-time process. Select up to 10 directories at a time that you want to submit to from the list of over 2700+ directories along with a category/subcategory for your site. Link Directory Submitter will fill in all the other details. NEW FEATURE: Link Directory Submitter will now auto select the category for your website you are trying to submit if you have included them in your website profile. Now Press Submit. You're all done. And even more power has now been put into your hands with the release of v3.0 of Directory Submitter. With Link Directory Submitter v3.0 you can now create your own Custom Directory Database by simply adding your own directories into the submitter that you find online, No more waiting for us to update the online database of directories into the submitter... You can now add your own directories...
