Mike Galaxy of L.A.'s Bandpromote.com Camille's music hooks you from the beginning. It is the kind of music that gets stuck in your head for days (like the gum you tried to chew all night long in 5th grade). Her debut cd, "Within Me", delivers to its audience a wide array of sounds and moods - yet all the while, holds true to the unique and unforgettable style of Camille's music - edgy, hip, raw, honest and haunting. It is packed with a full band sound and yet personal in its delivery- combining Rock, Alternative, Folk and Funk influences into one fluid sound. This cd has many styles- from simple acoustic full-fledged alternative rock with lead and vocal harmonies up front and personal. Camille is a born performer. Though just on the Seattle circuit a year, Camille - who's full name is Camelia Rose Bloom - spends her days performing in a classroom as a high school teacher - and her nights on stage driving an acoustic three piece band with her phenomenal voice and innovative guitar playing. Though modest about her achievements, in the last year Camille has showcased in L.A., been chosen for a compilation cd with some of the best talent around the world, taken over six tours and has been on several radio stations throughout Washington, Oregon and California. Her debut cd "Within Me" was just released in June. "Look out Seattle, We've got a rising star here."
