Gothic metal from the city of San Francisco, California. 6 MP3 Songs METAL: Gothic Metal, METAL: Doom/Stoner Metal Details: Welcome to the world of Daywalker. We live on the fringe of society. Never able to make a comfortable connection with humans. We, through uncontrollable urges and circumstance, found ourselves pulled deeper and deeper into a world of darkness. Friends and family died as the years slipped into obscurity. We found ourselves confronting our blackest fears. Somehow, our lack of traditional thought bestowed us with the ability to overcome the inevitable. We emerged into the uncertain light of day with a powerful knowledge. We have been to death and back, We have survived, I know who they are and they are not me, we are forever, we are so alone. Besides these truths, we are musicians. We have named this project after the experience, Daywalker. We are in this beyond life. We are in this in Love. Are we in this with you? -A couple reviews- A sonically dangerous band from The Bay, Daywalker assaults the senses with their own brand of futuristic sludge rock. Churning waves of heavily effected guitars, bombastic drum attacks, and spacey keyboards congeal to form a dark, ominous vibe rarely heard amongst the living. Strong, sometimes spooky vocals add to the mix without overpowering, interspersed with roughneck metal breakdowns and fluttering feedback. Ideal for headbangers and vampires alike, but unique enough to attract even the most jaded heavy-rock fans. -Listen.com- Daywalker sounds as if they're dragging their songs around by the hair. here's a tribal solemnity to their dark art, as though they're resolved to carry out some sinister mission, a rolling caravan of bad magic and thundering doom rock. Sirens wail, whips crack, and funeral keyboards lace the air like icicles as the band punches out rope thick Sabbath riffs and point walker Sean battles lyrical demons with a tortured moan. And then, the worm turns, day breaks, and the band bursts through the muddy depths of despair, guitars chiming like weary survivors of some freakish, endless storm. Emotionally draining snake cult metal that's

like a midnight shower of black sunshine. -Mic Stand Monthly- -A little history- SEAN MOU-KEEFE, Guitar and Vocals Sean's earlier projects include 6 years as frontman of international rock terrorists, DIESELMEAT, (Priority Records, LA.
