Mp3 E3 - Primary

100 Independent Surf/Punk Trio. With encoded lyrics, fast guitars, smooth bass lines and awesome surf beats. This is the ROCK of E3. The kind of music to bring home to mom dad. 9 MP3 Songs ROCK: Punk, ROCK: Surf Rock Details: This band was developed between friend and school mates to play house parties in their hometown of Las Vegas, as a means of something to do while there wasn't much of a music scene. They were not striving to be the new thing, but just to be, and to play some rocking shows. Growing up on old school punk, new pop punk and to be influenced by the sound of instrumental surf music, they decided to play what they like. But still, they did need something to be different, so they decided to get more in-depth with their lyrical writing (which no one seems to do anymore). With personal topics, important issues, contadictory jokes, all of these songs lead into each other to create a whole and a little more meaning. But this is meaning for the listener to find out for them selves. So now that this band you have stumbled across has put out thier first album you can find out what they are all about. By listening to the first song (WAR) off this fully independent punk album, you will find that there is something about it that you can't put your finger on. With its catchy lyrics, intense guitar, dynamic drumming and smooth bass lines (If only these sound bites could do this band justice). You will be wondering "what do these lyrics mean," and you will probably be thinking "I have already heard bands like this before." Hence the title of the album "PRIMARY". The definition for the word primary is basic. Which is the reason for this album to sound the way it does. So enjoy and we will be waiting for you to be coming back for more.
