This CD is bouncy, slick, very hot, head-bobbin reggae mixed with a little urban reggae. Will make you want to go to Jamaica. 10 MP3 Songs WORLD: Reggae, WORLD: African Details: I decided that, okay, you got 3 CD's that are heartfelt jazz, people are diggin them, so how about doing something fun, something exciting, something a little different. So, here is, "Yo Time Is Up", a delightful, happy CD with Latin and Jamacian influences. I had a blast doing it, so much that it became one of my regular CD's that I listen to before setting out into the daily world. Ok, enough about me, I would like you to give it this a listen, tell me (through my website) what you think. I'll be waiting for your feedback.. Granddaddy Mack
