Details: writting rhymes is one of my favorite pass times. i never been the greatest at it, nor have i ever claimed to be. i just like to have fun with it. my style is rhythmic in sinc with nature. i think being a story teller one should be. i like to put my personality in my music as well try to be a asset to my culture. as a composer of hip hop, i bring a more melodic sound to the table like my fellow bohemians (a tribe called quest, de la, digable planets, out kast, etc.)before me. so the music u get from me'll be the classic material that we all lust for.
