Details: SINGER-PIANISTS J P NADEAU Bilingual (French English) composer, arranger and career piano bar entertainer on land and sea for over 25 years. Featured guest on radio and TV programmes, a classically trained Canadian provides enthusiastic entertainment that begs description, because his "specialty is variety"! His phenomenal "JP's U-pick" is a listed repertoire of over 400 requests, distributed to the audience, that he will perform from memory (no hesitation), and it continues to delight those requesting and those in attendance. Having discovered a love of the sea over the last few years while performing on premier cruise lines, JP has developed an entourage who will follow him from ship to ship, literally. His variety programme includes: Show tunes, Swing, Jazz, Blues, Ballads, classic country tunes, popular 'pop' tunes, some classical renditions, and original compositions, many already recorded and available on two CDs, ALMOST FAMOUS and MOONGLOW, which have sold in the thousands. And yet, the professional standards that he exacts from himself are imperceptible in the fluidity of his performance, personal and heartfelt, that always remains "So much fun!"
