Details: Hey everyone, My name is Kelti Malone and I am a Canadian Singer Songwriter. I have a musical background including violin and piano which I began at 5 and 7 respectively. I began singing in 2007 to accompany the music I was writing. I wrote the first song for the album (You love me) near the end of February 2007 and finished writing the rest of the songs by September. Over that period of time I also recorded the album in my house. I attended school in the fall but then returned to the music full time in January 08 and began some intensive re-recording including the completion of two additional songs, getting the album up to the level that I was happy with. Now ready to go I present to you my debut CD walk on water. I hope that you enjoy the songs, thanks for listening! Kelti Malone Soli Deo Gloria Tags: pop
