Legends music is a reflection of what is going on in the whole world between men and women. Is not just a CD for listening. It is also a mirror of the good and bad experiences of peoples daily life. My lyrics are a sample of what I lived during my childhood, my life and the experiences of people near me. I think I am the voice of women everywhere says Legend. ----- Legend Vega was born under the lights of Broadway in New York City but raised to the beat of Salsa and Merengue in the Caribbean on the hot sands of Puerto Rico. She has recently finished recording her second CD with all of her own material titled Jump Into My Heart which features a fiery urban mix of Pop, Rock, and R&B served up with a contemporary Latin twist. the songs on her new album. She has completed a multitude of songs in a wide variety of styles (Pop, Rock, Romantic Ballads, Salsa, etc.) What I really love about singing is being able to reach into someones soul and touch their life in a special way. By writing my own music, I feel that I can do this even better its as if I am having a very personal and intimate conversation with each of my listeners." -- Legend Legend has an energetic and alluring on-stage presence as a dancer. She has performed concerts in styles ranging from classical ballet to Brazilian samba. She has performed solo dance shows and sang with artists such as world renowned flute player Nestor Torrez. Dancing is a natural extension of the sound of my music." -- Legend In addition to her musical and dance talents, she also has the physical look necessary for mainstream pop marketability. She is an experienced and successful model. She has appeared in print ads (perfume, hair, clothing, etc.), television commercials (beer, hair, etc.) and live fashion shows (Victoria Secrets, etc.).
