Details: .we love music. is the 8th neven-CD. This CD celebrates the almost 10 years during adventure of Neven. During 2002-2003 Neven did concerts all over the place. Making music for the Fringe-arts-festival in Bath-Bristol (UK). Performing for different video-installations on the Stubnitz, a huge boat in Rostock (Germany). Producing special dance-events on the Batofar in Paris (F). Making music for a video-performance during Brugge 2002. Participating in videoart in Rotterdam (NL). And making lots of music for Shortmovies in France and Germany. But in the summer of 2003, Neven began to concentrate again on the pure live-performance as a band. Neven gave concerts in more than 20 public places all over Brussels, Bars, a BowlingBall hall, train-stations, public gardens, in the street,During these concerts/performances, new songs were made, and many guest-musicians were recorded. In fact almost the whole material for this new album was recorded somewhere in a public place in Brussels, on a small minidisk or an even smaller MP3 recorder. And in the winter of 2003/2004 everything was mixed into this new album ...we love music., because that's what we do, loving music.
