At the age of six he requested guitar lessons and after two years of classical training - ("my teacher spent more time on the phone than in the studio with me !")- he gave up on the lessons and began turning his attention to writing his own music -Playing in bands throughout his school career - he eventually stopped playing at the age of 17 when he started his University career -.After 10 years in the USA (Philadelphia) - and having witnessed the birth and blossoming of MTV- Paul returned to South Africa- with his interest having been tweaked - to return his attention to his music talents - but it wasn't until some years later - when he was invited to join a local band - that he began to explore his song writing once again . In 2004 he released an EP - which enjoyed airplay locally and on the American College Radio circuit.His latest Album has been a year in the making - layered and textured like his painting style - and embracing the paradox of life experience - both simple and richly complex ! He counts amongst his influences in his writing - Nick Drake , Van Morrison ,James Taylor , The Beatles ,Joni Mitchel,and Paul Simon . reviews* author: Manuela Viana - London *****Five Stars This music seems to capture the very spirit from where Paul comes from. Its filled with that sublime breeziness that is Cape Town. That immediate sense of being able to drop into a tranquil space, where beauty is enough to make you feel contented. From his melodic voice to the intricate bluesy tunes; not only will you find yourself lolling to the musical waves, youll, just as quickly, be captured by a songwriter whos deeply personal. Its storytelling at its best! Each track carries you along a path that at first seems a glimpse of his life, and then becomes a window into your own. It becomes an intimate journey, a soulful

meeting that always leaves you feeling hopeful; that despite life's lessons the world is still filled with promises and love. Don't be surprised if you randomly find yourself singing to one of Paul's tunes - he somehow manages to find his way under your skin, and leaves you feeling happy! Producer/Performer author: Ilana Wetzler -***** Five Stars !! It's the type of album that makes you take a deep breath as the first song starts - and you slowly let it out as each song dances over the next - so that by the time it's done, you're left speechless and ready to breathe again... Another Way of Being author: Sonja Niederhumer ***** Five Stars !! A beautiful poem to love - a rare album I can listen to over, and over, and just keep wanting more! Each song is an intimate and beautiful story, hugged in ever unfolding musical journey of colour, originality, skill and inspiration. A masterful album from beginning to end. Bellissimo! ! Another Way of Being author: Esme *****Five Stars!! "Fluid, Soul full, playful, warm felt resonance"

Another Way of Being author: Tracey Bradley *****Five Stars!! Paul's music has made a huge impact on my musical life. To the Moon and Angels Collide must be the best songs I've ever heard. Full of emotions and meanings. "Soul Music" without a doubt!! The entire album rocks. Another Way of Being author: Justin *****Five Stars!! This is a great CD! I enjoy every song as for the lyrics are great and so is the music all together. I recommend this CD to anyone. Another way of being author: Lionel Bastos *****Five Stars!!! This has to be one of the best albums I have heard since The Art of Tea by Michael Franks way back in the 70's. The lyrics are sublime, the songs beautifully constructed and they simply have an effortless flow to them. It is a timeless gem. I could wax lyrical for hours but suffice to say that EVERY single song on this album is a gem and nowadays that is truly a very very rare thing to find even on CDs by big names like Norah Jones etc. There are no throwaway songs included here to fill up space. If I could give it 100 stars I would. If you love jazz/pop or good music and good songs, your CD collection is incomplete until this is in it. PAUL ABRO - ANOTHER WAY OF BEING author: Vanessa ***** Five Stars!! As soon as I heard the first track of Paul Abro's 'Another Way of Being', I knew I had encountered a unique, inimitable and flawless musical style. Not only is the music laid back and a great stress-soother but the lyrics in particular are soul-inspiring. All the tracks are a pleasure to listen to. 'Another Way of Being' is a treasure which I would highly recommend to all music lovers. Another Way Of Being author: Lisa Brink *****Five Stars!! Real feel good music! I found the words of 'Angels Collide' and 'To The Moon' lingered on in my head for hours after I first heard these songs and the rest of the album makes equally enjoyable listening! author: Vanessa Valentine **** Four Stars !! Paul is more than a musician, he is an

artist and poet who captures life in a colourful and meaningful way. His voice is smooth and laid-back - a perfect accompaniment to a romantic evening. His music will warm your soul. A Sure Thing author: Grant Nirenstein ***** Five Stars !! An artist in every sense of the word, Paul paints the scene with his lyrics and voice, as exquisitely as he does canvas with paint and a brush. A culinary delight for the ears, that is both spiritually and emotionally uplifting. email
