Folk influenced Pop/Rock for post grunge rock suburbanites. 10 MP3 Songs POP: Today's Top 40, ROCK: Modern Rock Details: Hello world, Were Radio Astronomy. Were a three piece indie/pop/rock band from Sacramento, California. We got together in early 2006 via an internet ad and within 2 months someone was throwing eggs at the garage where we practiced. Thats when we knew we were on to something. It took 10 months, but we eventually finished our debut ablum, October, in Dec. 06. (yeah, I know that doesnt make sense) Now were running around everywhere playing shows in clubs and coffee shops, book stores and parks; well play anywhere. Buy our album and come see a show :)
