These are improvisations built around very popular children's tunes using classical era harmonies. These pieces are fun to listen to and will be enjoyed by both children and adults. These pieces are on a concert level. I think so anyway. 11 MP3 Songs in this album (47:51) ! Related styles: CLASSICAL: Piano solo, KIDS/FAMILY: General Children's Music People who are interested in Ludwig van Beethoven Keith Jarrett Wolfgang Amadeus Mozart should consider this download. Details: It is well known that hearing classical music at an early age is beneficial to children's intellectual development. But most classical music melodies are not recognized by young children. To alleviate this problem, I incorporated familiar children's tunes into my improvisations using techniques and harmonies of the classical era. These pieces will be enjoyed by children and adults alike. I try to keep all these pieces interesting by using lots of rhythmic and harmonic changes and secondary melodies. I hope you like them.
