Dark soundscapes which lead you down the shadowed paths and into the fear in your soul. 9 MP3 Songs
ELECTRONIC: Soundscapes, ELECTRONIC: Virtual Orchestra Details: Sceptre is the dark alter-ego of A.C. Sharp who reaches into the dark, mysterious reaches of the human psyche. Sceptre was created when A.C. was working in his studio to create various forms of music. Finally, he reached inside and found the dark soundscapes which explore haunting and frightening images. With Blue Hush Dark, the darker side of Blue Hush Productions, Sceptre utilized various processors and instruments to create the moods filled within Dark Halls. He has created music for theatre productions as well as produced various other works with a much lighter tone, but Dark Halls is the exploration of the darker reaches of ourselves which we find while watching horror movies or during Halloween. For more information about the artist see A.C. Sharp and Blue Hush Productions (bluehush.com)
