If you're into heavy "rock" guitar, powerful vocals with energy and emotion, mellow "rock" ballads and a kick-ass live show this band is for you. They bring a fearsome, unbridled sound and style for your listening pleasure. Mind numbing guitar riffs, thunderous drums, and catchy vocal melodies will spark a fire in everybody who digs great "Rock Roll". LOUIE JAMES formed the band in late summer 2003 hooking up with DAN WANSTALL(rythm guitar), and soon after BOB MARCH (drums). Ideas were flowing and about 5 or 6 songs were written by Louie to be recorded at H.I.R. Studio's, Pomona, NY. A bassist was hard to find at the time so Louie did the bass tracks, eventually recruiting TOMMY GIACINTO to fill in live. A couple of tracks were revamped from songs recorded over the years. Some of which fit in with the style of new music being written. The 8 SONG CD(EP) is now available and the band is having a GREAT time playing it live. "We're just a few guys who love music, especially Rock and Roll", says Louie. "I personally get a genuine high creating songs from start to finish, then playing them live to an audience. It always has to be about the music. It's a lot of fun. Everyone in our band has a real passion for performing".
