This Paypal Invoicing IPN Script is used for Creating, Sending, Managing and Resending Invoices to your Customers and Clients. How does it work? From the Admin Panel you can Change the Paypal Email and Support Email and Start Creating and Sending Unlimited Invoices to any Email Address. The Script will Create and Send a Invoice to the Clients email address with a link to view there invoice. The Client can Pay there Invoice Securely using Paypal from the Page Linked inside the email they received. If the Invoice never gets Paid you can Always hit Resend at anytime and they will receive the invoice again.

Admin Features: Create and Send Invoices Delete Invoices Preview Unpaid Invoices Preview Paid Invoices Modify and Resend Invoices Send a Message to any Email Change Paypal Email Change Login Information Hosting Requirements: PHP 4 or above (Built using PHP 5) MySQL 3.1 or above Released On: December, 18, 2011 Last Updated: November, 13, 2012 Next Update: Not Available
