As a Bravenet Affiliate, you have the option to add their banners and/or text links to your site in order to refer new members, but B.I.A.B. goes one step ahead: By unzipping and uploading the B.I.A.B. package to your own server, you can offer their web tools from your own website, giving visitors the option to register the Bravenets services directly from your website, by passing your own Bravenet Affiliate Code in the submitted form in order to receive the credit for this signup. Banners and text links based on cookies are not 100 effective depending in the users browser configuration, so refering a visitor to an external website through an affiliate link does not guarantee you will receive the credit for this signup. We know Bravenet tracks them in a very efficient way, but once more, this way is not absolutely safe to be credited for your referrals. Because B.I.A.B. is a transparent pack that shows your visitors most of the resources available at Bravenets website, it doesn't redirect your visitor to their website directly, in fact it offers your guests to signup through your affiliate ID from your own website. This way, you are rewarded with every signup refered earning \$1 for each of them that becomes a free active user It also gives you a professional looking website and more traffic to come.
