Our music unlocks the door to your joy with Caribbean rhythms and soulful Jazz, led by flute and voice. Poetic lyrics sing authentically about life, love, the Spirit, society and nature on our CD called Speak Peace, Breathe Life. Bernard was born on the Caribbean Island of St. Kitts and lived there until age 12. Calypso rhythms and lyrics were his earliest musical influences. He is a graduate of Berklee College of Music in flute and composition. He is also a psychologist and author of two books: 1) I Am With You Always: Living by Faith in the 21st Century and 2) God, Self Community: Revelation, Testimony Practice. He has written more than 50 songs and released 4 solo CDs. Laurel studied voice in college and has performed in many church and secular groups. Bernard and Laurel first worked together in 2003 when she was a director and singer with a choir at Polar Grove Baptist Church in Maryland, where Bernard played the flute. He noticed that Laurel had the ability to inhabit a song; to get comfortable with it and to make it reflect her own personality. When he needed a singer who could articulate the songs that come to him on an almost weekly basis, he naturally thought of her.
