Christian / Rock / Live and Spontaneous Worship Songs 11 MP3 Songs POP: Delicate, EASY

LISTENING: Soft Rock Details: This album was recorded digitally at various worship conferences and other times of worship. People have been asking for years that Julie's prophetic and spontaneous songs be recorded and we are pleased to release this first of many. Julie has been learning to sing "spontaneously" since 1983. Her pastor, Mike Bickle, encouraged her to sing what was stirring in her heart, privately and then on the microphone. He knew she had a song-writing gift and hoped that the "song of the Lord" could be developed for personal and instant public expression. These spontaneous songs have blessed many people for many years and we were able to capture some of the best ones!
