Intimate piano moods for massage composed spontaneously in thirty minute segments to enhance relaxation 2 MP3 Songs in this album (60:09) ! Related styles: EASY LISTENING: Mood Music, AVANT GARDE: Free Improvisation Details: Phil Perdue is a self-taught pianist who spent many years performing in bands. Always wanting to play his own unique style of piano, he now performs in restaurants creating an ambiance people enjoy while relaxing. This particular CD, Hands, was the result of placing a timer on the piano and playing spontaneously for 30 minutes two separate times. Phil loves the challenge on composing on the spot because every composition is different and reflective of the moment. The two 30 minute compositions were played with the art of massaging in mind. Most massages are either 30 or 60 minutes long. The masseuse can start the CD and know exactly when the massage is half done or completely done by the music. Take this CD to your masseuse and enjoy.
