

Mp3 Severinus - Fragments Of Life

[DOWNLOAD HERE](#)

Sophomore release of dark industrial haunting beats, to layered lush ambient melodies, both of these genres collide into each other, bringing out the joys and sorrows of life. 15 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Ambient Details: Hello to everyone. Originally the CD was going to be called 'Fragments', but through some personal tragedies it has been called 'Fragments of Life'. It was going to be another instrumental album, But I wanted it to expand in terms of vocals. I basically wrote what i have felt in my heart. Most of the songs with vocals deals with struggling with Faith in God and progressing in Faith. Some songs deal with sorrow, and the lost of a loved one. Human nature is definitely a topic too. Its still mainly a instrumental album. Out of the 15 tracks, 5 have vocals to them. Musically it was more tough. Especially finding melodies and beats that are not 'common' Experimentation of playing melodies played backwards, and use of delay and flange effects were also used. Compared to the first release "Inheritance," "Fragments of Life" is a dark album, with slices of light. People who are interested in Enigma Front Line Assembly Johann Sebastian Bach should consider this download.
