Overall Comments: Nice job! Well put together. What stands out for me is the writing. It's intelligent substantive. The experiences you talk about are familiar subject matter, but you give it a fresh treatment and a personal touch; relatable yet distinctive. Further, the "dodgin the rain"concept theme are well developed carried throughout. Additionally, I like that you stretch for more creative ways of rhyming don't fall back to typical, common approaches. All of that is then delivered with commanding engaging flows. Good job on the vocals, both you Big Reece. The hook has a strong, memorable melody the singing is well performed. Underneath is really solid track. The beat groove provide the momentum which is accented nicely by the dynamic guitar warm sax. It's a cool,laid back, reflective mood that's still hip hop. Overall, a great outing; nothing really to change or improve; well done all around! Good luck with the project all the best to you! Overall Rating 10=best 8-Music 9-Lyrics 8-Marketability 8-Arrangement 9-Production 9-Engineering Melody- Memorable "Hook" Structure- Good sectional contrast Lyric- Engaging Good use of imagery Rhymes well Communicates emotion to listener Vocal does help to sell song
