

Shoploop: Responsive HTML5 Opencart Theme

[DOWNLOAD HERE](#)

About Shoploop Shoploop is a responsive, modern and clean OpenCart theme for any type of store. Its created by using HTML5 and CSS3, with a responsive design which makes it a perfect fit for all devices. Note: Admin module + Featured Product Slider module included!! With Featured Product Slider module you wont design banners! And also, a great Documentation file included. If you have any question, post a comment or send me a message from my profile page. If you like the theme, dont forget to rate it ;) HTML version available [HERE](#) Admin Demo ([CLICK HERE FOR ADMIN DEMO](#)) Username: demo Password: demo Responsive Design (mobile, tablets etc)
