HOT! Easy Resell Page Editor For Fast Resell Page Setup Do you have hundreds of MRR/PLR products on your harddrive but just dont have the time to edit them on your own? Heres the solution to quickly edit all of those resale rights pages for quick cash. Easy Resell Plus (short for Payment Link Update Software) is a software product from EasyResell.com. It will automatically customize the mini web sites provided with products bought with resale rights. Easy Resell Plus will replace the appropriate links in the mini site with your payment service link, ready for you to take payments. The software is used to update one HTML file at a time. (Most mini sites only contain a single HTML file). Easy Resell Plus can

also be used to replace links in other files (HTML and text). For example, you can use it to customize ready made sales letters with your web site link, or to customize ready made affiliate web pages and articles with your affiliate links. The software can be used with any document or page where you want to replace an existing link with a different link. You can also use it just to get a quick list of all the links in any document or page. To start, click the Select File button. A standard Windows dialog will appear allowing you to select the file to be updated. After you have picked the file, Easy Resell Plus will search through the file to create a list of all the links and ask you to choose which link to replace. When updating mini sites with your payment link, the first link on the list is usually the correct one, but you should always check. Once you have selected a link, you should choose what to replace it with. If you use Click bank as your payment service, you can use the button labelled Replace link to pay me through Click bank. In the boxes underneath enter your Click bank nickname, the number for this product (1 for your first product, 2 for your second, etc.) and the title (or name) of the product. If you use a different payment service, or want to replace
