KIDS/FAMILY: General Children's Music, FOLK: Gentle Details: A "Best Bets" selection in EARLY
CHILDHOOD TODAY Magazine, the editors wrote "Take time to enjoy this easy-listening
cassette...Listen to folk music and Bob Neary's mellow voice running through the 14 selections with
nature as the central theme." Also, "Over In The Meadow" has been featured in special sound programs
at a number of nature centers throughout the country because the song topics and lyrics are true to
natural facts and the song styles are highly listenable for children (and adults). Bob has recorded several
other albums including a nature/environmental CD for children ages 3-7, called "Trees, Trees, Trees"
(available in hardcopy at cdbaby.com). An easy-listening CD of Bob's own compositions - "I Can't Quit
Now" - will be available soon from Estate Records, and a single track on a collection of train songs will be
forthcoming in 2006 from NBT Records.
