"Red Dirt Blues" - - Where hard driving Texas Blues, cruising in a 92 Caddy "low rider" collided with an Outlaw Country freight train. The dirt, debris, fire and smoke created a huge Rock 'n Roll mushroom cloud. 22 MP3 Songs in this album (129:31) ! Related styles: COUNTRY: Americana, BLUES: Texas Style People who are interested in Stevie Ray Vaughan Drive-By Truckers Govt Mule should consider this download. Details: If you arent familiar with Jeff, he is a native of Lamesa, Texas, near Lubbock where he grew up on a diet of edgy country, blues and rock n roll. He eventually moved in the 80s to Austin and played a variety of genres in a variety of bands. Frustrated with the music business Jeff pursued a real job with the hope of returning to music. He was actually a successful trial lawyer in Texas for 10 years before deciding to return to music in 2000. (We lose one lawyer and gain back a great musician all at once- thats a good day!!) He moved to Durango, Colorado to gain musical inspiration. This must have worked as Jeff delivers a killer live performance that you do not want to miss.
