Pop-folk with a kick of alt-country. Intelligent lyrics and passionate vocals. 12 MP3 Songs POP: Folky Pop, FOLK: Folk Pop Details: MERMAIDS, the sophomore release from New York City-based singer-songwriter Jodi Sheeler, showcases Jodi's searching songwriting style and deep, expressive voice on an album that blends pop, rock, and alt country. The daughter of a music teacher, Jodi's interest in the performing arts began as a little girl trailing behind her father to the high school musical rehearsals. After college, Jodi moved to New York City where she began singing and writing in earnest. Learning to craft songs and play guitar in small coffee houses, she chipped away at building an audience that is now at capacity at such established New York venues as The Living Room and The Bitter End. She has toured colleges and cities throughout New England, Midwest, and the Mid-Atlantic and often performs with Emily Curtis and Gabrielle as part of the trio Angels in the Round. Her music has been played on college radio stations across the country including WFUV in New York.
