jangly, alt-folk-esque pop for the miserable, melancholic, and happy-to-be's. 5 MP3 Songs POP: Delicate, FOLK: Folk Pop Details: "a first-rate bit of poignant, aching balladry." --Los Angeles Times "LIFEBOAT INTO MIGHTY comes from SoCal urban-acoustic misfit Michael Miller. His voice ranges from scrub-brush whispers to a tenor that can chase a mandolin (both heard frequently on this EP). LIFEBOAT is a strong signature production, with extra musician muscle from members of The 77s and the Lost Dogs. "Literally, I cannot think of a more engaging debut by a singer songwriter..." --True Tunes Magazine "Miller combines sparse but effective vocals and mandolin, Hammond organ, dobro and accordion with the usual guitar-bass-drums, and he creates magic." --OC Register Robert Kinsler, in the Orange County Register, declared Miller his "favorite acoustic act of the entire decade" and testified "'Lifeboat Into Mighty' is truly a Mighty Work".
