'Redzone create a luscious hybrid of Goth, Techno and anxious Drum 'n' Bass. Dense female vocals echo from out of the 4AD back catalog and into a '90s post-rave mix.' from Listen.com 12 MP3 Songs
ELECTRONIC: Experimental, ELECTRONIC: Industrial Details: 'After two good self released maxis and some busy activities on the Net, this is finally the first album of Redzone in a more professional format and with a very original cover...very sexual indeed.... Describing the music of this British duo is not as easy thing to do; far away from clich, the band tries to develop their own style... a kind of wavy trance leaded by the floating voice of Ami and multi-instrumentalist Justin. The catchy 'Spiked', 'Layer6', or the gloomy 'Recess' are among my favourites. (8/10)' Issue 29, Sideline Industrial Music Magazine, (Brussels, Belgium), side-line.com
