A combination of Ragtime Jazz, Old Country Blues, Creepy Folk, 70s era glam and psychadlia, along with electronic/experimental soundscapes, played with soaring pop melody's and cascading falsetto harmonies. 14 MP3 Songs POP: Party Pop, ROCK: Progressive Rock Details: Hailing from the deserts of Tempe, AZ, the five-piece Indie/Pop group known as Skybox has managed to attract a lot of attention for themselves. Having released their debut LP Arco Iris, recorded by Jamie Woolford of The Stereo and mastered by Jason Livermore (Rise Against, The Ataris, MxPx), Skybox's music managed to catch the attention of Jesse Ledoux (ex. assistant art director at Sub Pop Records), who after hearing just one song offered to design their CD packaging. Having already shared the stage with The Honorary Title, Jack's Mannequin, The Format, Waking Ashland, Steel Train, Reubens Accomplice and many others, Skybox is scheduled to complete a nationwide tour in support for their upcoming album. Perhaps it is because of their utterly unique and catchy sound, their entertaining live shows, or their down-to-earth demeanor, but whatever the case may be, people everywhere are falling in love with Skybox.
