Well that would seem to be at least a good beginning eh Mates? All members of ALFAOMAGA are veterans with each having been around the Rock music world long enough to know what people like in their genre. Influences such as Early GENESIS (With Peter Gabriel), YES , King Crimson and Deep Purple are present but not restricting other sounds heard on ALFAOMAGA songs. The band wants to get started ASAP. Barney concludes "We are going to record this third album and then hit the streets. I'm personally chomping at the bit to get started. The other guys are too. They can feel the energy rising and the griddle's gettin' hot, baby. Let's go!" ALFAOMAGA's first album is 1998 release "The Looking Glass" and is also available.
