HIP HOP/RAP: Hip Hop, WORLD: Reggae Details: Love,pain and sometimes strife - It's just another day called Life... Thanks for checking out my music! I love doing this! Its that simple. I have always had a strong passion for music, From my childhood days when my grandma would turn on the radio and I would dance to anything that played - to my days back in high school when I was a member of a local two man dance group. And even the first time I ever dropped a freestyle line at a house party. Music is art, and I see the beats as my canvas, so paint with these here words. All my paintings need to have a strong often times positive message, of some sort. I have been flowing and writing (Hip Hop) for a short while now and I am loving every bit of it. My Reggae experience goes back a bit further. Back to the sunny days in Jamaica when I would chill at the park with my childhood friends and just write reggae lines. Originality and creativity defines my music. I always try to be as positive as possible, however I try not to preach to anyone and i will occasionally drop a laid back, party type track - but whatever I do look for some sort of message. Have fun listening to my music and stick with me while I keep elevating, while I keep bringing something fresh to the table, and while I keep growing. One Love Chidomo
