

Mp3 Chris Carlisle - Broomsage Hollar

[DOWNLOAD HERE](#)

Original Tunes played on an Appalachian Mountain Dulcimer, both Flat Picked and Strummed. My tunes will leave you relaxed and filled with thoughts of the country life in the Appalachian Mountains. 12 MP3 Songs COUNTRY: Country Folk, FOLK: Traditional Folk Details: In 1975 my uncle Elwood brought this funny looking instrument to one of our family gatherings it had an hourglass shape and four strings. Well at the time I was 13 years old and was deep into Heavy Metal Music so if it couldn't play a Rush or Kiss song I wasn't interested. Fast forward to 2004 I had just finished building furniture for our home and was between projects when I was watching television channel checking as men do and came accross a show on our local educational channel called "Jubalee" which shows people playing the same funny looking instrument that my uncle had shown me so many years ago. I then researched the internet for Mountain Dulcimer's and found a store that sold them and decided to purchase it. Once I bought it on feb. 27th 2004 I practiced 3 - 4 hours a day and after 10 months of intense learning, tunes of my own started bubbling to the surface and before I new it I had written 15 of my own Dulcimer Tunes. At first I recorded the tunes and created a C.D to give to my family for Christmas, well a couple of weeks after that my family was preasuring me to make it public, all the while I had written 17 more songs for the second C.D. and 6 months after that 12 more tunes for Broomsgae Hollar. If you purchse my C.D. I truly hope you enjoy it for years to come Thank You
