Classic old skool electro acid rap 17 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, ELECTRONIC: Trip Hop Details: This pioneering underground rap crew outta Brockton, Mass. ripped mad shows throughout the northeast in the late 1990s, coining the term "acid rap" with their dusted rhymes about life, death, drugs, despair and everything in between. Unfortunately, tension, drugs and drama led original members Driftski and Shemrok to split in 2000. Drift formed Natural Chaos with J-Maze (ex-Flip 22|Life Underground) and dropped their debut "Supanaturalz" in September 2005. Shemrok, meanwhile, has resurrected the CTS beast and is recording several new albums while legions of misfits and outcasts have joined the Drugratz cult worldwide. "The Diabolical Dope Act," featuring the original lineup, stands as a masterpiece, with its old skool electro beats, lo-fi production and brutal honesty.
