Go to The Islands and Margaritaville. 16 MP3 Songs POP: Today's Top 40, EASY LISTENING: Soft Rock

Details: Literally hundreds of songs are at the guitar playing fingertips of this consummate performer. He sings and plays it all - ballads, country, rock, originals, sing-a-longs, Irish tunes, Jimmy Buffet style island songs, the Beatles, 50's, 60's, even original parody tunes. Jeff always has the crowd laughing, singing along, dancing, and having a great time. Jeff has entertained the cruise crowds and locals alike at the popular Hogpenney Pub in Hamilton, Bermuda. Jeff can also be found at various spots in Upstate New York: entertaining solo (and sometimes with his drum machine - Lou the drummer!), and with others - adding a bass, second guitarist, and even a saxophone when warranted! I first met Dave Kaspersin in 1982 when I went to Dynamic Recording Studio to record a song I wrote as a Christmas present for my then girlfriend (now wife) Ellieen. Since then, Dave and I have been good friends. After a CHANCE meeting with my sister Jackie, he also became my brother-in-law. Dave has always been there with good advice, some criticism, and good sound direction that could only enhance my career. Music is a crazy business to be in and with determination and a sense of humor you can almost survive. Dave and I have been friends a long time and through the years we've managed to laugh a lot and keep our heads above water without getting into too much trouble (Dave just blames me for that anyway). I've been playing music for 25 years - meeting a lot of people and going to many places, and some of the selections on this recording are because of this. Some songs are from other artists - they have special meaning to me, or just reflect my "Island" style, and "have fun while you can" attitude. Sincere thanks go to everyone who participated on this album - we've had a great time recording and performing together, and there are many good memories here. So, sit back, have a listen, and I hope you enjoy "The Dynamic Years". Next time I see you, you can let me know how you like it! Jeff Elliott-Vocals and Acoustic Guitar on all
