

Mp3 Joseph Cipriano - Motherload

[DOWNLOAD HERE](#)

Multi-genre blues-based trio, powerful lyrics and stellar musicianship, a must hear. 12 MP3 Songs BLUES: Rockin' Blues, ROCK: Modern Rock Details: Hey Folks I don't know how you wound up here, but I'm glad you stopped by. Motherload took a year to put together and I'm really pleased with the results. I've completed 2 full length projects prior to this, but did not feel they were worthy enough for me to try and sell. I thought this album was, so I put the money into having it copied. I am a 41 year old musician who started playing music when I was twelve. I started on clarinet and I played that for about five years. That's actually where I learned most of the music theory I know and how to read and write notation. I started practicing guitar in a serious fashion when I was about 18 and haven't looked back since. My style is rooted in blues, but there are rock, folk, punk, reggae overtones in a lot of my work. I did all the performances, recording, editing, etc on this album at BoogieMan Records in Bellingham Washington. BMR is my own label and was started for many reasons, the foremost being the creative expression it allows me. I wrote and arranged all the songs on MotherLoad except "Folsom Prison Blues" which, well we know where that came from Thanx, Mr. Johnny Cash I hope to put together a European blues tour in a year or two. I love touring because as a musician, I believe, on stage is where the real magic happens. If you don't feel like buying the whole album, individual downloads are available at most major download sites. If you want to read my lyrics, click the link on this page to my website Thanx for stopping by. All the Best All Ways Joseph Cipriano
