Contemporary Americana Blues, Folk and Bluegrass 10 MP3 Songs BLUES: Acoustic Blues, COUNTRY: Country Folk Details: I was raised on a tobacco farm in Kentucky. I started playing on an old, beat-up banjo when I was nine. Then a neighbor gave me a guitar when I was ten. Then, I played high school bands, dances, and similar shows. I left home at seventeen, hitchhiked around some, and settled in Colorado playing clubs and coffeehouses in the 1970s. Yes, I am that old, well over 50. There was a lot of music then and there, and I met a lot of good people who taught me a lot, and had the opportunity to tour the United States playing music. In 1980, I moved back to Kentucky where I farmed, played, wrote, and recorded, and flirted with Nashville. An unrequited affair, to say the least, but also a learning experience. I now live in Natchez, MS where I am a working musician, an oxymoron, I know. I hope you like my music. If you want to know more, send an E-mail (rex_n_pruitt@yahoo.com). I have some good stories. In addition to being an artist, I am also interested in co-writes, publishing, or anything else regarding the songs that I offer and the music I play.
