Drawing on folk country roots, the lyrics weave stories that are backed by a blend of rich harmonies, acoustic guitars, violin, keyboards, bass and mandolin. 12 MP3 Songs COUNTRY: Country Folk, FOLK: Modern Folk Details: Trevor is a Australian singer/songwriter and has been writing and performing songs for many years at various venues around Sydney. Recently he produced an album titled The Reason. Trevors songs tell a story and convey a message. The lyrics cut deep into the realm of human condition and social issues crossing the age boundaries. The combination of acoustic guitars, bass and piano, with three part harmonies blend together to create a compelling and unique sound that many have described as fresh folk. Reviews: I think the production is first class. I was really impressed with all the work by the various musos and Kathleen's harmonies are almost ethereal in spots. But most of all I just like the songs. They are very catchy and after only a couple of listenings I found the tunes roaming around in my head all through the day. I hope you sell lots and get the recognition I think you deserve for it.
