Groovy Downtempo lounge music with a PsyElectroDub meet Nu Jazz Beats 12 MP3 Songs

ELECTRONIC: Down Tempo, EASY LISTENING: Lounge Details: Mellowgrounds is the debut compilation from Mighty Fat Records, featuring a fresh mixture of hand picked global Chillout sounds raging from Nu-Jazz through ElectroPsyDub to the most groovy and emotional Downtempo beats.

'Mellowgrounds' has already been described as owning the sound of a new psychedelic 'Caf Del Mar' with a twist. Hailing from Israel, Mighty Fat Records was formed early 2005 by Dovev Nistor Oded Keret, breaking into the Chillout scene with some of the best new DowntempoDub'N'LectroBootyShakin'Beats from around the globe. "I havent ever come across an album as fiendishly and immoveably full of character, dense with musical enjoyment, solidly quirky and genuinely fresh in years." Damion psyreviews (10 out of 10) "Compiled by Mista Fabla, Mellowgrounds is courtesy of Mighty Fat Records in Israel. As its first release these 12 tracks bring a freshness both to the typical psy-chill and overcooked Cafe Del Mar sub-genres. Reflecting a refined aesthetic for the more acoustically-influenced electronic music this is an excellent debut album which gives a little something extra to everyone who's had their ear to the ground for the latest in downtempo goodness." Naasko interchill| nativesaterecords.com "Imagine a dark smokey jazz club, outside the last winter rain drops are dripping, the trumpeter nods the DJ who starts mixing dubby loops which signals the bass and drums to join in with joy for a sweeping artistic session."
