Reason For Chosing Music As A Career For the pure love. I've played guitar and spit flows since I was 11 years old. i'm 26 now and I feel I've wasted time by not promoting and recording. So in the past two years I've started to do all the things I thought I would never do. So I guess it's never too late... All I really give a fuck about is leaving my message behind when I die, In the form of hip-hop and all other forms of music. Topics covered in songs: I chose a political and street forum. sometimes I like to take a break from all that shit and write about pollution, bitches, spaceships, or whatever, but my true love is to write about how corrupt the planet is (mostly the United States). I'm not a United States hater, but sometimes you gotta wonder ... Why is the rest of the world starving when we are always eating? Then you gotta ask yourself, how do we obtain that food? In time the truth will shine through. Beyond that, I like to expose how it was to grow up in north long beach as a kid. With all the drugs, death, hatred, gangs, hustlers, guns, graffiti writers, and crooked ass cops, it's a fucking miracle that we're still standing alive. Basically, I write about my life experiences and how I precieve public issues. So don't try to bullshit ... or I'll write about you. PEACE.
