[DOWNLOAD HERE](#)

Lighthearted, comical, and fun rock/pop written for people of all ages. Each song is written about a different sport. Baseball, Football, and more obscure sports such as Jousting and Badminton are covered, each in a different style. 9 MP3 Songs POP: Beatles-pop, KIDS/FAMILY: Kid Friendly Details: Dinosaur Lightning is the name for the music group that performs (mostly) the rock/pop/other compositions of Keith Burgun. The Brachiosaur really is the main influence. But then again you cannot really stress enough how important those fierce lightning bolts flying through the sky can be to an artist, because its like BOOM and anyone who got hit just plain died, no kidding. But Brachiosaurs really were the influence for all the music, and a few other dinos who were wise enough to grow a pair and act like Brachiosaurs. Lightning is also awesome though. We sound EXACTLY like joni mitchell and EXACTLY like kylie minogue. It has been noted that we are a TOTAL RIP OFF of Nine Inch Nails, Beck, Radiohead, the Beatles and Nobuo Uematsu. The following bands are suing us for copyright infringement: Willie Nelson, Public Enemy, Queens of the Stone Age, and Sigur Ros. The following bands have publicly issued statements indicating that we have physically broken into their studios and stolen music directly out from their master tapes: The Presidents of the USA, Queen, Beethoven, Sheryl Crow(pre Soak Up The Sun, because she didnt even have rights to that crap, which was stolen from the toilet factory), and whoever wrote the music to Sonic the Hedgehog 2. Weird Al Yankovich has sent us threatening emails saying that we are rip offs, also. We plan to rip off ABBA in the future.
