Life & Depth is a groundbreaking EP from the Figureheads. Genre-bending underground hip-hop at its finest, the tracks range from playful to powerful, personal to prophetic. The production is excellent and the lyricism is stellar. This EP is the 2nd volume 5 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, ELECTRONIC: Experimental Details: This Madison-based hip hop groups last EP, Configurations, was an adventurous journey into glitchy, electronica-based beats and intelligent, philosophical rhymes. Emcee Jer 1s precise flow and impressive mic presence really separated the groups from a lot of other underground hip hop. Life and Depth is another five song EP. While similar to Configurations in its sound, it also showcases the groups growth and a few new elements. Most noticeable is emcee PegLegGregs presence. While staying in the background on the first EP, PegLeg takes center-stage this time around, sharing mic duties with Jer 1. The two compliment each other beautifully; PegLeg has a focused, straightforward flow and deeper voice that contrasts well with Jer 1s fiery, agile rhymes. This EP is also more melodic, with PegLeg singing some hooks and bridges. While most rappers probably shouldnt sing, PegLeg pulls it off nicely, especially on Undermind and the title track. The two emcees, along with the amazing producer Dave Tracksmith Olson, are also an incredible live act starting to make a name for themselves in Madison. Life and Depth is available now.
