Acoustic Newmade Folk 15 MP3 Songs FOLK: like Joni, FOLK: Modern Folk Details: Let me tell you about my music. I'm a hippie, was a folk singer in the sixties, and now I'm back in the new millennium playing the guitar and writing songs. My music reflects my life, my community, and the joys, sorrows, passions, anger, and hope that a long life brings. I live in the lefty community of Takoma Park, Maryland and my usual venue is my front porch. What inspires my music? In 1969 I came to Washington, D.C. for the Vietnam Moratorium. I realized that day that despite my commitment to Peace I was not sure what it felt like. I began a search to experience Peace in my own life. Right now in my life, I feel Peace in music, in the honest expression of what I am feeling. My songs reflect that. So Peace for me includes both light and dark, love and hate, forgiveness and anger. Enough explanation. Just listen to the music! If you want to visit my website it's janehurst.com. I hope you enjoy my music, because I've enjoyed making it!
