Jazz fusion, instrumental, quirky, colorful, fun, dreamy, avant-garde, and imaginative. Stretch the wings of your mind before you fly. 15 MP3 Songs JAZZ: Jazz Fusion, WORLD: World Fusion Details: This is Johnny Katchoolik's first all-instrumental album, featuring 15 tracks that will make your mind go "wheee!" The way the tracks are laid out in the album is more like a 3-course meal. The album starts out with an appetizer of tunes that will ease you into the Katchoolik groove. They are filled with light but flavorful percussion sounds, inspired by Katchoolik's taste for world music. Then, you are whisked to a different dimension, where your mind is challenged with various experimental sounds and rhythms. The percussion, fretless bass, and guitars give wings to your mind. Finally, the sonic journey winds down with a few mellow and more contemplative tunes that are designed to help you decompress and relax your mind as you continue your day. This album is about being fun, adventurous, avant-garde, carefree, quirky, imaginative, and original. As a musician, Johnny thrives on playing what hasn't been played. Are your wings of mind ready for the sonic flight? ***** Johnny Katchoolik is an indie musician of many colors, personalities, sounds, and eccentricities. His passion for music began at the impressionable age of a toddler. He started out on the guitar but quickly picked up the bass, keyboard, and various other electronic software instruments. He enjoys breaking the rules and crossing the boundaries. Although he has jammed with many musicians and performed with various bands over the years, his real music playground has always been the studio the only place where his quirky ideas and offbeat tunes can be surgically extracted from his cerebral cortex.
