Lush melodies, poetic lyrics, and a couple of banging rockers: this CD packs more into five songs than most full-length albums. 5 MP3 Songs POP: with Electronic Production, ROCK: Modern Rock Details: A couple meets for an illicit rendezvous at the mysterious Blue Hotel -- or is it just a fantasy? Perhaps the one being dreamed up by the bored concertgoer in Red Light Shines, who can't seem to get into the mood of the headliner's adoring fans. It's a film noir world in the songs of Lia Nowels, who has once again teamed up with producer Caleb Sherman (their first collaboration was Check This Out) and come up with something special. This 5-song EP creates a moody, sensual atmosphere that lingers in the listener's mind. Spend some time on 39 Ocean Avenue and find out for yourself.
