Floribbean-euro dance hybrids: rap-salsa, calypso, R&B a la Prince, Latin club, progressive house, jazz house, trip hop. Twisted by provocative yet sophisticated lyrics, tricky rhymes, irresistible hooks melodies. ;) 11 MP3 Songs HIP HOP/RAP: Trip Hop, POP: with Live-band Production Details: Tired of dance music that sounds like washing machines and dryers? Try this Black Eyed Peas meets Roger Sanchez meets D-Lite album. Bounce music. Like Vegas in Miami, but cabaret size. A dusky world of Hot bodies. A fun, swirling circus of exotic perfume, sex and euro intrigue. An intense flight through a forest of subtle and hard beats, all laced with the deliciously organic and Latin piano stylings of Solarmagic (the singer's studio partner.) If you dig on soulful, seductive yet risque flow in your entertainment, ladies, then this stuff will definitely grow on you. Like a psychedelic. Fellas: This mid tempo CD is also an eye-opening, tongue-in-cheek portrait of one crazy femme fatale: a spy named Kryptika. you'll see! Props to Solarmagic. His hand percussion kept these soundscapes warm and intimate. As for me, I just like to get on the mike and throw down. Testify in all the voices of the world. M.C. Radiance is versatile, unpredictable. I'm the singer-rapper-lyricist-vocal shape-shifter loony that you'll find onstage busting synchronized rhymes, embellishing harmonies, sometimes ripping out tasty guitar licks. Generally elevating these same tracks to a whole new level, live for the fans. Be warned: BOUNCE INTERNATIONAL is an original concept album, not some generic copycat blah blah album with a couple of good songs and the rest is all padding and filler. Get this CD, throw it on. Strap in(/on) if you want, but this bounce gets kind of hard to sit down to. - M.C. Radiance
