The arrangements of songs can be best described as life knowledge hood principals. City Boys proves that DC rap is not just about high fashion or all the murders one person can commit. Ahsahnte, 1/3 of Money for Life, produced various tracks that compliment the CD's tone and subject matter! He says, "I wanted to make something that was all about us! We Cityboys!" The songs are real but not too hardcore." The title of the CD came when Money for Life recorded the lead single, "Where I'm From"! The CD includes songs that are emotional ranging in topics from child neglect "Watch No Longer" to divorce "Hear My Cries". The goal was to create a CD with songs that inner city or underprivileged people can relate to.
